

Meagan Crawford (Member)

Prior to launching Urban Economic, Meagan was the Lead Economist at Future Cities Catapult, an International Centre of Excellence backed by the UK Government. Meagan led a team that assessed the economic, social and environmental impact of ICT deployments within cities. She has worked on compiling numerous economic cases for public and private investment in ICT up to a value of >150mm (GBP). She has extensive economic and financial modelling experience. She has been the principle economist for multiple BEIS VFM appraisals (inclusive of NPV analysis) and Financial cases for presentation to Treasury. She is well versed in both ex ante appraisal and ex post assessment using both public specifications and industry standards across a wide range of ICT initiatives with niche expertise in digital transportation initiatives. She has spent over a decade focusing on labour market trends, with specific focus on the intersection of the labour market and technology.
